

# Virtual Online TESOL

Whether you are a novice English teacher or an experienced teacher, this course will give you fresh insights into English Language methodology. You will watch videos of real teachers teaching and learn to analyse and identify the good practices being demonstrated. An online coach will discuss with you the lesson structure and you will learn to plan your own lesson using the input that have been given to you through the videos, handouts, activities and exercises designed to guide you throughout the course. You will also have the opportunity to teach in a real classroom and put these into practice.

THERE ARE **10 MODULES** OF TEACHING AMOUNTING TO **117 HOURS** OF LEARNING.

### Classroom Management

Gain further understanding of the three factors which affect effective classroom management, namely the classroom environment, the teachers and the students.

### Teaching Speaking

Develop your understanding of two approaches to teaching speaking, the concept of fluency versus accuracy and examples of speaking activities.

### Teaching Grammar

Develop an understanding of the deductive and inductive approaches to teaching grammar, plan grammar lessons using relevant and achievable objectives as well as lesson stages.

### Teaching Vocabulary

Develop your understanding of the various strategies that learners can use to learn new words and tips to help teachers prepare their vocabulary lessons.

### Teaching Listening

Develop your understanding of kinds of listening and activities which can be used in listening lessons.

### Teaching Writing

Develop an understanding of essential steps of teaching writing, the parts of a formal academic essay, the four types of writing and their basic formats as well as the core principles of what teaching writing entails and the key elements of a successful writing lesson.

### Teaching Pronunciation

Develop an understanding of the principles of teaching pronunciation and some problems encountered when teaching pronunciation.

### Testing and Evaluation

Further understand the concepts of testing, measurement and evaluation.

### Teaching Reading
